

# WHO IS BLIZZARD'S BIAS?

Looking across the 4 pvp seasons of Dragonflight, which specs were the most common (or rare) in the 3v3 top 5000 leaderboard?

## Top Healer

**Restoration Druid**  
#1 across 3 seasons, fear the 'clone

## Bottom Healer

**Mistweaver Monk**  
In the bottom 3 across 3 seasons, Mistweavers could use some love

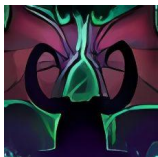

## Top 3 Damage Specs

**1. Retribution Paladin**  
Ever since Pally-geddon in season 1, Ret pallys have dominated the leaderboard

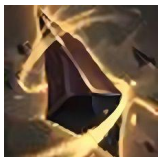

**2. Shadow Priest**  
Lethal and unkillable, #2 across seasons

**3. Havoc Demon Hunter**  
The haters will say it's low skill and too powerful... and maybe they're right

## Bottom 3 Damage Specs (#1 being worst)

**1. Augmentation Evoker**  
The new "support" class in Dragonflight wasn't very viable in arenas

**2. Outlaw Rogue**  
Difficult to master and.. difficult to climb the leaderboard

**3. Fire Mage**  
It's hard AND it's bad

## Horde vs. Alliance?

As a horde player, if you find yourself getting wrecked in battlegrounds:

*Almost 70% of the top ranked 3s pvp players are Alliance, due to beneficial racials (e.g. shadowmeld)*
